Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/538,285	Applicant(s) MAKI, TSUNEO	
	Examiner David H. Bollinger	Art Unit 3653	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3653

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 through 4, 11, 14 through 17 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bannai et al in view of Noguchi (Japan 04-007236).

Bannai et al teach everything including a charger that charges a surface of the endless conveyance belt in a belt-like alternate voltage pattern having alternate polarities (see Fig. 2A), however; Bannai et al fail to teach control of the charge by the control part by controlling the width of the alternate voltage pattern in a direction of the conveyance of the sheet in accordance with a type of sheet.

Noguchi teaches employing a control part to control the width of an alternate voltage pattern in a direction of the conveyance of the sheet in accordance with a type of sheet (see the abstract).

In view of the teaching of Noguchi to control the width of the alternate voltage pattern in a direction of the conveyance of the sheet in accordance with the type of sheet it would have been obvious to one of ordinary skill in the art to provide the control part of Bannai et al with the function to control the width of the voltage pattern in the direction of conveyance of the sheet in accordance with the type of sheet.

Art Unit: 3653

3. Claims 5 through 10, 12, 13 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claim 19 is allowed.

5. Applicant's arguments with respect to claims 1 through 4, 11, 14 through 17 and 20 under 35 USC 102(b) as anticipated by Noguchi (JP 4-7236) have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Bollinger whose telephone number is 571-272-
